

South Park School District Mission Statement

To provide an educational atmosphere where all students have opportunities to discover their talents, develop their abilities and achieve the highest expectations embedded in our educational program to become responsible and productive members of society.

Superintendent Guide for Action planning and Goal setting for the 2018-19 School Year

I. Strategic / Cultural Leadership

School culture is identified as one of the most impactful contributors to creating a successful learning environment in a school setting. To improve school culture it is necessary to implement a process that includes stakeholders in developing a system of site based management. This process will incorporate teacher leadership, student opportunities, professional learning circles and community involvement strategies to meet the goals of the strategic plan. In doing so it is expected to improve performance and student achievement outcomes for students and staff of the South Park School District.

II. Systems Leadership

Ensure best practices for human resource management and oversight to recruit, develop, support, and retain quality teachers and support staff in the South Park School District. Acknowledge and recognize administration and staff contributions that benefit the district. Continue to design transparent systems to equitably manage human and financial resources. Work to update and make relevant policies for the district. Most importantly we will focus to maintain a school environment for staff, teachers, students and families that are inviting, accessible, safe and secure.

III. Leadership for Learning

Work collaboratively with the administrative team to improve communication between administration, staff, and community. This includes developing purposeful professional development for staff to make the best use of the district resources to improve student learning by focusing on curriculum updates. Continue work to develop educational and financial partnerships with business and foundations to support the district financially and with opportunities for students.

IV. Professional and Community Leadership

Collaboratively work to establish a school culture that encourages and welcomes families and community members in a safe and secure setting. Develop and facilitate ways in which to engage business partnerships in student learning or district activities at the South Park School District. Maintain visibility as a part of the community and understand the intricacies of the stakeholders and how we can work together to enhance student experiences.
