

PIAA COMPREHENSIVE INITIAL PRE-PARTICIPATION PHYSICAL EVALUATION

INITIAL EVALUATION: Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1st and shall be effective, regardless of when performed during a school year, until the latter of the next May 31st or the conclusion of the spring sports season.

SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR: Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

SECTION 1: PERSONAL AND EMERGENCY INFORMATION

PERSONAL INFORMATION Student's Name _____ Male/Female (circle one) Date of Student's Birth: ___/___ Age of Student on Last Birthday: ____ Grade for Current School Year: ____ Current Physical Address _____ Parent/Guardian Current Cellular Phone # () Current Home Phone # (Parent/Guardian E-mail Address:_____ Fall Sport(s): Spring Sport(s): **EMERGENCY INFORMATION** Parent's/Guardian's Name_____ Relationship _____ Address _____ Emergency Contact Telephone # ()_____ Secondary Emergency Contact Person's Name Relationship Address Emergency Contact Telephone # () Medical Insurance Carrier______ Policy Number_____ Address Telephone # () Family Physician's Name_____, MD or DO (circle one) Address ______Telephone # () ______ Student's Allergies Student's Health Condition(s) of Which an Emergency Physician or Other Medical Personnel Should be Aware Student's Prescription Medications and conditions of which they are being prescribed _____

Revised: March 22, 2023 BOD approved

Section 2: Certification of Parent/Guardian The student's parent/guardian must complete all parts of this form. **A.** I hereby give my consent for _____ born on ___ who turned on his/her last birthday, a student of School and a resident of the __ public school district. to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests during the 20____ - 20____ school year in the sport(s) as indicated by my signature(s) following the name of the said sport(s) approved below. Fall Signature of Parent Winter Signature of Parent Spring Signature of Parent **Sports** or Guardian or Guardian Sports **Sports** or Guardian Cross Basketball Baseball Country Bowling Boys' Field Lacrosse Competitive Hockey Girls' Spirit Squad Football Lacrosse Girls' Golf Softball Gymnastics Soccer Bovs' Rifle Tennis Girls' Swimming Track & Field **Tennis** and Diving (Outdoor) Girls' Track & Field Bovs' Volleyball (Indoor) Volleyball Water Wrestling Other Polo Other Other Understanding of eligibility rules: I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at www.piaa.org, include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance. Parent's/Guardian's Signature Disclosure of records needed to determine eligibility: To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data. Parent's/Guardian's Signature Date / / Permission to use name, likeness, and athletic information: I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics. Parent's/Guardian's Signature Permission to administer emergency medical care: I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 7 regarding a medical condition or injury to the herein named student. Parent's/Guardian's Signature Date / / Confidentiality: The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information

contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical

Date / /

condition will not be shared with the public or media without written consent of the parent(s) or quardian(s).

Parent's/Guardian's Signature

SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise

- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

What should students do if they believe that they or someone else may have a concussion?

- Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents. Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- The student should be evaluated. A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- Concussed students should give themselves time to get better. If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

How can students prevent a concussion? Every sport is different, but there are steps students can take to protect themselves.

 Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:

The right equipment for the sport, position, or activity; Worn correctly and the correct size and fit; and Used every time the student Practices and/or competes.

- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

If a student believes they may have a concussion: Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and trauma participating in interscholastic athletics, including the risks associated with continuing to compete traumatic brain injury.

SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) occurs when the heart suddenly and unexpectedly stops beating. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

There are about 350,000 cardiac arrests that occur outside of hospitals each year. More than 10,000 individuals under the age of 25 die of SCA each year. SCA is the number one killer of student athletes and the leading cause of death on school campuses.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as

- · Dizziness or lightheadedness when exercising;
- Fainting or passing out during or after exercising;
- Shortness of breath or difficulty breathing with exercise, that is not asthma related;
- Racing, skipped beats or fluttering heartbeat (palpitations)
- Fatigue (extreme or recent onset of tiredness)
- Weakness:
- Chest pains/pressure or tightness during or after exercise.

These symptoms can be unclear and confusing in athletes. Some may ignore the signs or think they are normal results off physical exhaustion. If the conditions that cause SCA are diagnosed and treated before a life-threatening event, sudden cardiac death can be prevented in many young athletes.

What are the risks of practicing or playing after experiencing these symptoms?

There are significant risks associated with continuing to practice or play after experiencing these symptoms. The symptoms might mean something is wrong and the athlete should be checked before returning to play. When the heart stops due to cardiac arrest, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience a SCA die from it; survival rates are below 10%.

Act 73 – Peyton's Law - Electrocardiogram testing for student athletes

The Act is intended to help keep student-athletes safe while practicing or playing by providing education about SCA and by requiring notification to parents that you can request, at your expense, an electrocardiogram (EKG or ECG) as part of the physical examination to help uncover hidden heart issues that can lead to SCA.

Why do heart conditions that put youth at risk go undetected?

- Up to 90 percent of underlying heart issues are missed when using only the history and physical exam;
- · Most heart conditions that can lead to SCA are not detectable by listening to the heart with a stethoscope during a routine physical; and
- Often, youth don't report or recognize symptoms of a potential heart condition.

What is an electrocardiogram (EKG or ECG)?

An ECG/EKG is a quick, painless and noninvasive test that measures and records a moment in time of the heart's electrical activity. Small electrode patches are attached to the skin of your chest, arms and legs by a technician. An ECG/EKG provides information about the structure, function, rate and rhythm of the heart.

Why add an ECG/EKG to the physical examination?

Adding an ECG/EKG to the history and physical exam can suggest further testing or help identify up to two-thirds of heart conditions that can lead to SCA. An ECG/EKG can be ordered by your physician for screening for cardiovascular disease or for a variety of symptoms such as chest pain, palpitations, dizziness, fainting, or family history of heart disease.

- ECG/EKG screenings should be considered every 1-2 years because young hearts grow and change.
- ECG/EKG screenings may increase sensitivity for detection of undiagnosed cardiac disease but may not prevent SCA.
- ECG/EKG screenings with abnormal findings should be evaluated by trained physicians.
- If the ECG/EKG screening has abnormal findings, additional testing may need to be done (with associated cost and risk) before a diagnosis can be made, and may prevent the student from participating in sports for a short period of time until the testing is completed and more specific recommendations can be made.
- The ECG/EKG can have false positive findings, suggesting an abnormality that does not really exist (false positive findings occur less when ECG/EKGs are read by a medical practitioner proficient in ECG/EKG interpretation of children, adolescents and young athletes).
- ECGs/EKGs result in fewer false positives than simply using the current history and physical exam.

The American College of Cardiology/American Heart Association guidelines do not recommend an ECG or EKG in asymptomatic patients but do support local programs in which ECG or EKG can be applied with high-quality resources.

Removal from play/return to play

Any student-athlete who has signs or symptoms of SCA must be removed from play (which includes all athletic activity). The symptoms can happen before, during, or after activity.

Before returning to play, the athlete must be evaluated and cleared. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed this form and understand the symptoms and warning signs of SCA. I have also read the information about the electrocardiogram testing and how it may help to detect hidden heart issues.

South Park High School Athletics

"The Parents' Pledge"

Cooperation among coaches, athletes, parents, guardians, and school personnel is essential if students are to realize the value of athletic participation. Like coaches and athletes, parents must make commitments to the athletic program to assure these values. We ask that you read, sign and return the following "PLEDGE" and as needed, discuss your reactions with your child's coaches or the school Athletic Director as outlined below.

Thank You.

As the parent of an athlete of this school, I promise.....

- To work closely with a school personnel to assume an appropriate academic, as well as athletic experience for my child while he/she is in school.
- To assume that my child will attend all scheduled practices and athletic contests.
- To require my child abide by the athletic department's training rules.
- To acknowledge that the coach has the ultimate authority to determine a strategy and layer selection and that playing time is **NOT GUARENTEED.** Coaches have the responsibility to put the most competitive team in the contest.
- To promote mature behavior from students and parents during athletic contests.
- To work closely with coaches and other school personnel to identify a reasonable and realistic future for my child as a student athlete.

If you have a concern with a coach, you should......

- Call the coach to set up an appointment. If the coach cannot be reached, call South Park High School's Athletic Director, Patrick Colligan at 412-655-3111 and he will be happy to arrange a meeting for you. *Please contact the athletic if have any unresolved concerns*.
- Most importantly and in the spirit of good sportsmanship, please do not attempt to confront a coach or engage in discussion with a coach immediately before or after a contest, practice or on game day. These can be highly emotional times for both the coach and parent. Discussions under times of high emotions do not promote the best outcome in the resolution of issues.

Appropriate Concerns for Parents to Discuss with Coaches:	Issues NOT appropriate to discuss with coaches:
1. Treatment of their child	Playing time/ positions/ assignments
2. Ways for their child to improve	2. Team strategy
3. Concerns about their child's behavior	3. Play calling
4. Concern for their child's health and safety	4. Other students and teammates

Dear Parents and Guardians,

As part of a contractual agreement between UPMC Sports Medicine and the South Park School District, UPMC provides certified athletic trainers to aide in the prevention, recognition, evaluation, and treatment of athletic injuries.

To treat your son or daughter, a form must be signed by parents/guardians of the student-athlete. It will be found on page 9 and 10 of this packet. This form gives the athletic trainers and other associated healthcare personnel permission to assist or participate in providing care in the event of an injury or illness. This form also allows the athletic trainers to communicate with medical personnel and the school district's athletic department personnel, including coaches, in order to provide consultation, treatment, and establish a plan of care for the injured or ill patient.

Please note that this form has no relationship to your health insurance plan and in no way should influence your choice of medical care. UPMC, as the employers of certified athletic trainers in the South Park School District, must have this form completed in order to provide to your son or daughter to comply with privacy and standard consent to treat laws.

In addition, copies of the UPMC Notice of Privacy Practices documents can be viewed at https://www.upmc.com/patients-visitors/privacy-info/notice-of-privacy-practice

Please sign the attached document. If you revoke this authorization or consent form, please contact the athletic office at 412-655-3111. We look forward to your student-athlete's safe participation in South Park athletics. Thank you for your time.

Sincerel	v.
DILICCI CI	у,

UPMC Sports Medicine

	Sport 1:	Sport 2:	Sport 3:	
Print Athlete's Name	Print Athlete's S	Sport(s)		

As part of a contractual agreement with UPMC Sports Medicine, certified athletic trainers may aide in the prevention, recognition, evaluation, and treatment of athletic injuries. **Please note that the forms below have**

no relationship to your health insurance plan and in no way, influence your choice of medical care. UPMC must have these forms completed to comply with privacy and standard consent to treat laws.

(1) UPMC Authorization for Release of Protected Health Information

- I authorize UPMC to provide information related to the athlete's care to family/school/team physicians, school nurses, coaches, athletic directors, school principals, EMS personnel, and such other persons as is necessary needed for them to provide consultation, treatment, establish a plan of care or determine whether the athlete may resume participation in school or sports activities.
- I authorize UPMC to use the athlete's medical information for UPMC internal departmental reporting purposes.
- I authorize UPMC (including its hospitals, other entities and programs) to use medical or other information maintained on electronic information systems or stored in various forms about the athlete's care, health care operations, or payment for treatment and services.
- I understand that the health record(s) released by UPMC may be re-disclosed by the facility/person that receives the record(s) and therefore (1) UPMC and its staff/employees has no responsibility or liability because of the re-disclosure and (2) such information may no longer be protected by federal or state privacy laws.
- I understand that this Authorization is in effect for a period of one year from the date signed by the athlete.
- I understand that this Authorization is in effect if the athlete is treated for an injury during off-season workouts; however, no time frame specified shall go beyond one year from the date of signature.
- I understand that I have the right to revoke this Authorization form at any time by sending a written request to UPMC at the location where the Authorization was provided.
- I understand that my decision to revoke the Authorization does not apply to any release of my health record(s) that may have taken place prior to the date of my request to revoke the Authorization. I understand that I am entitled to a copy of this completed Authorization form.

I consent to the provision of care. I understand that this care may include medical treatment, special tests, exams, evaluation, treatment, and rehabilitation of athletic injuries. I acknowledge that no guarantees have been given to me as to the outcome of any examination or treatment and all results of any examination and/or treatment are kept confidential.

I understand and agree that others may assist or participate in providing care. This may include, but may not be limited to team physician, school nurse, and licensed physical therapists. Under the direction of a certified athletic trainer, college/university athletic training students and high school student aides may also provide care.

I acknowledge that no guarantees have been given to me as to the outcome of any examination or treatment.

In the event of ImPACT baseline testing, I understand the ImPACT baseline testing provided by UPMC Sports Medicine is not intended to prevent, diagnose, or treat a concussion and is not to be administered following a possible concussion. If the athlete suffers a concussion, the administration of an ImPACT post-test is generally conducted at the discretion of the concussion specialist at their facility.

(3) UPMC Privacy Practices

I understand that copies of the UPMC Notice of Privacy Practices document are available at the school, can be sent in the mail upon my request or viewed at http://www.upmc.com/patients-visitors/privacy- info/Pages/default.aspx. I give UPMC and its designees permission to use my information as described in the UPMC Notice of Privacy Practices.

By signing below, I am acknowledging the above (1). Information, (2) Consent for Treatment and Healthcar
